Principal's Report

3 different groups met with St. Felix and talk to some of the families. MNSAA and State reports are back. They found 5 areas of strength: Staff dedication and engagement from students, onsite leadership and day to day operations, great connection between community and school, family/ generation support, and feeling of god's love/act of kindness throughout the school. Things to work on documentation or mapping of curriculum and new staff training process.

- Rachel Moravec will be helping full time in Preschool
- Hilary stepped down from God's Kids during the school year but will continue to take on the summer season. Acosta will help out on snow days and no school days.
